

**Bismuth Subsalicylate Suspension No. 596**

		<b>Wt. %</b>
<b>A</b>	<b>VEEGUM® HS</b> Magnesium Aluminum Silicate	1.6
	<b>VANZAN® NF</b> Xanthan Gum	0.4
	Water	94.2
<b>B</b>	Sodium Salicylate	0.1
	Sorbic Acid	0.1
	Sodium Saccharin	0.2
	Bismuth Subsalicylate SG <sup>1</sup>	3.4

**Procedure:** Slowly add the **VEEGUM® HS** and **VANZAN® NF** sequentially or as a dry blend to the water agitated at maximum available shear. Mix until fully hydrated. Add Part B ingredients in order, mixing after each addition until uniform. Mix suspension slowly as necessary to de-aerate before packaging.
