PHASE D			
SHAROMIX 705	<i>Benzoic Acid, Sorbic Acid, Dehydroacetic Acid, Benzyl alcohol</i>	1,00	SHARON

Procedure:

- ✓ Premix phase A stirring slowly between each addition;
- ✓ Add phase B ingredients to a separate container. Homogenize until complete solubilization;
- ✓ Add phase C ingredients waiting for uniformity before adding the next ingredient;
- ✓ Add the contents of phase C to phase A. Combine slowly phase B into phase A+C;
- ✓ Add phase D with slow agitation;

This formulation is based on data we believe correct. We recommend that any suggestion to be adopted before being tested for stability and efficiency. Suggestions of uses should not be construed as inducements to infringe any law or patent.
